

Energetic treatment with Ancestral Aztecs

Hello dear soul!

My name is Marina. I grew up in Croatia and Switzerland. My path took me via Costa Rica and Belize to Mexico. In all three countries I had insights into other lives of myself. In Mexico, however, a gift was revealed to me during an inner journey. Since then I have been in contact with the ancestral aztecs. It is my starseed, my ancestral family in a subtle place and with subtle beings. They accompany me ever deeper into my strength and power and I am grateful that I can carry this gift into the world.

Anyone who feels called is warmly invited to come along.

I am shown profound experiences, insights and connections of the visitor, which often reach into other lives. The aztecs cleanse the subtle bodies. This leads to more clarity and resolution, which can have physical effects.

The “visit” can be in person or by telephone and lasts about an hour and a half. Please respect that the costs for each country vary and can change.

It is a very loving place. The aztecs are full of love and gratitude for every visit. With every step towards liberation, we help ourselves, humanity and the earth.

With love and gratitude.
